

## Tyrone Gillam

### Assistant Superintendent

Tyrone has 20 years in the construction field as a carpenter. He started his carpentry training at Northside Summit Academy OIC. After graduating he was sponsored into the Carpenter's Union Training Center as an Apprentice Carpenter. Tyrone went on to become a journeyman carpenter, working for several construction companies. Tyrone's skill set are metal and wood framing, sheet rocking, windows, decks, and mill work.

His leadership earned him a foreman position and now assistant superintendent. That has been a goal since his inception as an apprentice.

*"I am blessed to say that I am helping to build places that make communities a better and beautiful place to live, visit, and to conduct business."*
