

Robert Timperley

Senior Project Manager Pre-Construction Services

Mr. Timperley has extensive background and over 55 years of experience in the real estate development and construction industry. His resume includes structural drafting and design, project management, real estate development and investment, construction marketing, administration, and ownership.

Mr. Timperley has provided design and construction services to the multi-family, office, commercial, hospitality, retail, religious and medical market sectors for over 38 years. During this period Mr. Timperley has been involved in the construction of over five hundred projects and over 5,000,000 square feet of new and remodeled construction product.

Timeless buildings don't just happen ~ they are the product of experience, skill & craftsmanship, applied vigorously, one project at a time. As each successful project is completed and occupied, the builder deepens his knowledge and expands his capabilities. Attention to detail, vigilance to the ideals of the craft and a relentless pursuit of excellence are our core principles and values at Tri-Con.

Tri-Construction combines the experience of key personnel into over one hundred years of lessons learned, value achieved, and satisfaction delivered.
